# Sahara

Design Gabriel Tan

As simple and spontaneous as a sand formation carved by the wind, its shape is the perfect starting point for creating a multitude of patterns – from the asymmetrical to the symmetrical, from geometrically strict configurations to dynamic, random formations reminiscent of sand dunes.

## Specifications

The Sahara Wall Panel is made of cork, a natural material with excellent acoustic properties. Sahara is made out of waste material from the production of wine corks at a factory in Portugal.

MÖBELFAKTA

# Sahara

## Technical Specification

<b>Material</b>	Molded cork with binder.
<b>Dimensions</b>	450x450x60 mm
<b>Weight</b>	3820 g
<b>Colour</b>	Cork
<b>Installation</b>	The wall absorbent is wall-hung using concealed suspension fittings in aluminium (included).
<b>Circularity</b>	Sahara is made out of waste material from the production of wine corks at a factory in Portugal. Cork production occurs in harmony with nature; indeed, it helps to preserve Portugal's beautiful groves and forests of cork oaks. The product is designed to be reused and we offer 10 years spare part warranty. Use our reuse service when the product's lifecycle is over, see more: <a href="http://www.abstracta.se">www.abstracta.se</a> .
